Re: Comments on Administrative Record - Red and Bonita Removal Site

Dear Mr. Way:

Sunnyside Gold Corporation supports the Removal Action at the Red and Bonita Mine Site in San Juan County – Site ID# 08UP. As you know, this Removal Action is part of the collaborative effort to improve water quality and habitats in the Animas River. The activities contemplated in the Removal Action are called for in the Animas River Stakeholders Group's *Timeline for Reducing Metal Loading in Upper Animas River Basin*, which provides a roadmap for the collaborative effort. EPA deserves credit for its commitment to the collaborative process and its work at Red and Bonita.

Sunnyside's support of the Removal Action in no way implies that it agrees with, or has even fully read, all of the materials included in the voluminous Administrative Record. We do, however, note that one of the Site Maps included in the Action Memorandum inaccurately portrays the extent of the Sunnyside workings.

Thank you for the opportunity to comment.

Sincerely,

Larry Perino

Manager, Reclamation  
Sunnyside Gold Corporation
